

CAMCO® Med-Redi Indexing Products

Med-Redi: CAMCO Quality and Reliability for the Medical & Pharmaceutical Industry

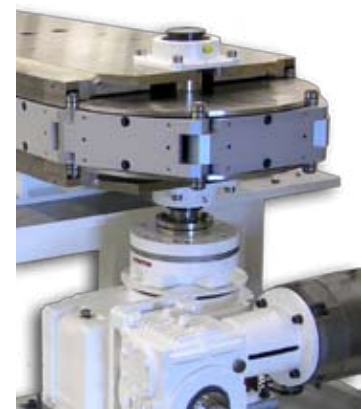

CAMCO® Med-Redi family of **index drives**, **conveyors** and **parts handlers** provide the proven quality and reliability of a CAMCO drive with features specifically designed for the unique environments required by medical and pharmaceutical manufacturing.

Key Features

CAMCO Med-Redi Products can be customized to suit your application with any or all of these key features:

- Electroless nickel plating of steel shafts and mounting surfaces
- Viton® seals to protect against contamination
- Medical and Pharmaceutical-approved lubricants
- Epoxy coating of cast iron surfaces to desired color
- Expansion chamber to minimize exhaust of oil contaminants
- Manufactured under CAMCO's ISO 9001:2000 quality system

Indexing products for the Medical Industry.
The best just got better.
